The advantages of this Pump over many others are many. The Chain being buttonless, it is much lighter, consequently it is not liable to break, and works much easter. The RUBBER BUCKETS which are satached to the Chain will not wear the Tubling, consequently it will last longer than when Metal Buttons are used. It is positively. ANTI-FREEZING. It is a positive wATER PURIFIER, as each Eucket is constructed with an AIR CHAMBER, which carries a given quantity of pure air into the water, which immediately diffuses through the entire body of water, purifying and cleaning, and rendering it fit for use.

THE IMPORTANT QUESTION. Of all loathsome diseases Catarrh stands pre-eminent. It renders its victim as dis-gusting to himself as others. And the most humiliating of all is the consciousness that his presence is offensive to those around him. If any disease deserves the name of universal, it is this. Dietetic errors and the follies which fashion imposes upon us tend to foster and disseminate it.

To the pitiful cry of its victims, is there any cure for Catarris, there is but one answer consistent with Christian reason.

God has never sent one evil into the world for which he has not sent the remedy. For the greatest of all spiritual and moral For the greatest of all spiritual and moral evils, the Great Physician has prescribed a potent and never-failing remedy. He has given explicit rules for the treatment and preservation of the spiritual and moral man, but He is silent in all matters relating to the physical man. It would be an unwarrantable detraction from His beneficent character to suppose that He has offlicted the greater portion of humanon the reacc.

All the farmers were of the "well to do" sort, and some of them, who have turned their attention to fruits and market gardening, have grown rich. The soil is loam, varying from sandy to clayer, and surface gently undulating, intersected with small streams and occasional wet meadows, in which deposits of peat or muck are stored, sufficient to fertilize the whole upland surface, after it has been exhausted of its natural fertility.

It is certainly one of the most extensive tracts, in an almost level position, and suitable condition for pleasant farming, that we know of this side of the Western prairies. We found some of the oldest farms apparently just as profitably productive as when first cleared of forests fitty or a hundred years ago. Harper's Bazar ILLUSTRATED. when first deared of forests fitty or a nundred years ago.

The geologist would soon discover the cause of this continued fortility. The whole country is a marine deposit, all through the soil we found evidences or calcareous substances, generally in the form of indurated calcareous man, showing many distinct forms of ancient sholls, of the tertiary formation; and this marly substance is scattered all through the soil, in a very commont easily assimilated by such plants as the farmer desires to cultivate.
